

We asked youth, community and sector experts...

How can we build strong digital futures for youth with disabilities?

Strong Baseline Support

- ★ Ensure youth have stability and are getting the most out of available supports and resources

Digital Literacy and Technology Inclusion Framework

- Build a national digital education curriculum with accessible experiential learning opportunities ★

Product Accessibility Standards

- ★ Require accessibility to be built into all digital technologies and product updates

Enhance Access

- Help youth with disabilities find the best assistive technology for their needs ★

Build Inclusive Workplaces

- ★ Support employers' efforts in and proficiency with accessible practices

Support Successful Careers

- Equip young people with the tools to transition into and excel in their career ★
